AMSEL-SE-IS-SDW-E-I   DATE: 5 November 1998

MEMORANDUM FOR ILIDB USERS

SUBJECT: Software Version Description (SVD) for Installation
Support Module (ISM) Installation Level Integrated Data Base
(ILIDB) Interim Change Package (ICP) V41-A08-07-04-A

1.   Enclosed is ICP V41-A08-07-04-A which provides a formal
change to the Installation Level Integrated Data Base (ILIDB)
ISM.

2.   Acknowledgement of installation of this ICP must be made IAW
instructions provided in Enclosure 1.

3.   This memorandum certifies that the ISM subject software has
been thoroughly tested, is considered to be a quality product,
and is hereby authorized for release to a production environment.

4.   Security Implications: NONE.

Encl   Kevin J. Greaney
                                  Colonel, SC
                                  Commanding

CHANGE PACKAGE CONTROL NUMBER: (V41-A08-07-04-A)

SOFTWARE VERSION DESCRIPTION (SVD) FOR

Installation Level Integrated Data Base (ILIDB)

SYSTEM INTERIM CHANGE PACKAGE (ICP) (V41-A08-07-04-A)

Change Package Control Number: V41-A08-07-04-A

CONTENTS

i

Change Package Control Number: V41-A08-07-04-A

1. Scope.

1.1 Identification. This Software Version Description (SVD)
applies to the Installation Level Integrated Data Base (ILIDB)
running on Army Standard Information Management System (ASIMS)
and networked AIX operating system on UNIX platforms.

1.2 System Overview. ISM applications use the Installation
Level Integrated Data Base (ILIDB), which is the central
repository for data that is common to more than one ISM

application, and various local databases that contain data
elements unique to the individual ISM applications.

1.3 Document Overview.   This document provides the instructions
necessary for the implementation of the formal Software Interim
Change Package (ICP) V41-A08-07-04-A of ILIDB.   It informs the
users of the changes made to the system and provides Point of
Contacts (POCs) to be contacted in case of problems.

2.   Referenced Documents.

2.1 Referenced Documents.   This paragraph has been tailored out.

3.   Version Description.

3.1 Inventory of Materials Released.   This paragraph has been
tailored out.

3.2 Inventory of Software Contents.   Hardware platform - ASIMS/
UNIX AIX OS users.   This change package contains the following
files.

```
PROGRAM                    VERSION        UPDATE
ilidbld_0704.cpio.Z        0700           20 Oct 1998
README.ilidbld_0704        0700           20 Oct 1998
install_ilidbld_0704       0700           20 Oct 1998
```

3.3 Changes Installed.

3.3.1 Corrector Descriptions - Technical.

1.   ECP-S/E   V41-A15M-002
     A.   CYCLES: None.
     B.   PROGRAM: ILIDB Load
     C.   PROBLEM: Head coded century added to data fields
                           in SIDPERS records.
     D.   RESOLUTION: Modify the add_century2date function to
                           use a formula when determining the
                           century of a 2-digit date field.
     E.   ICP: None

3.3.2 Corrector Descriptions - Functional.   None.

3.3.3 Summary of Changes.

a.   Copy library member changes.
     1.   Changed: None.
                          1

Change Package Control Number: V41-A08-07-04-A

     2.   Deleted: None.
     3.   Added: None.

b.   Control library member changes.
     1.   Changed: None.
     2.   Deleted: None.
     3.   Added: None.

3.4 Adaptation Data.   This paragraph has been tailored out.

3.5 Related Documents.

3.5.1 Technical Documentation Changes.   There are no technical

documentation changes for this package.

3.5.2 Functional Manual Changes.   There are no functional
documentation changes for this package.

3.6 Installation Instructions.

The following procedure installs ICP 0704 for ILIDBLD v 07.00 on
to each AIX server with AIX 4.2/ORAVLE 7.3.3.

STEP 1.   Login with the login name of "root".

STEP 2.   Select a drive on the system that contains at least 300
            meg of available disk space.   Change directory to that
            drive and create a directory called "ICP.0704".   Place
            the following files for ICP 0704 in the directory
            ICP.0704.

            ilidbld_0704.cpio.Z   10833939   20 Oct 1998
            README.ilidbld_0704   1186   20 Oct 1998
            install_ilidbld_0704   1596   20 Oct 1998

STEP 3.   Change directory to the start directory created in step
            2 and type:

            chmod 777 install_ilidbld_0704   <Enter>
            ./install_ilidbld_0704   <Enter>

STEP 4.   The install_ilidbld_0704 will complete the following:

            a.   uncompress and uncpio the ilidbld_0704.cpio.Z
                  file.

            b.   change the ownership of and copy the files in this
                  ICP into the prd directory of user "ilidbld".

            c.   record all output from each of the steps performed
                  in a file named "ilidbld_0704.log" located in the
                  directory specified in STEP 2.

                                      2

Change Package Control Number: V41-A08-07-04-A

STEP 5.   Results of the installation in ilidbld_0704.log should
            be reviewed.

3.6.1 Installation Effective Date.   This ICP should be
immediately implemented upon receipt or NLT 30 days from date of
receipt.

3.6.2 Security Implications.   This paragraph has been tailored
out.

3.6.3 ANSOC Installation Instructions.   All users receive the
same baseline with change package number through e-mail and
Status Tracking and Reporting System (STARS) Bulletin Board
System (BBS).   This change package contains the following files:

Quantity File ID   System   Change Package

```
1          ilidbld_0704.cpio.Z      AIX 4.2          V41-A08-07-04-A
           install_ilidbld_0704
           README.ildbld_0704
```

Ensure that all master file backups have been completed prior to loading this package.

Use these load instructions to develop load procedures that work best for your installation.

Due to various user configurations, each installation must determine appropriate block-size and library allocations.

Users must not, repeat, must not, make changes to the files.

Security impact: None.

3.6.4 Special Installation Instructions - All Users. None.

3.6.5 Point of Contact. If there are any problems or questions with the installation, or any shortage to the contents of this package, call the Army Network and Systems Operator Center (ANSOC), Ft.Huachuca: DSN 879-6798/6858 or 1-800-305-3036.

3.6.6 Report of Implementation. Implementation of this change package must be reported by completing the change package implementation form. This report must be sent to Ft.Huachuca using Fax or mail.

3.7 Possible Problems and Known Errors. This paragraph has been tailored out.

4. Notes.

4.1 Notes. This paragraph has been tailored out.
